INTRODUCTION

The ten public library systems in Saskatchewan are established under *The Public Libraries Act, 1996*.

This legislation also provides that the Provincial Library act as the central library for Saskatchewan and act as a coordinating agency for public libraries within Saskatchewan. In that role, the Provincial Library receives, compiles, and publishes annual statistical information from the public library system.

The regulations to the Act enable the Government of Saskatchewan to provide grants to Saskatchewan Public Libraries. These public libraries participate in the Saskatchewan Union Catalogue, in reciprocal borrowing within Saskatchewan, and in the Saskatchewan interlibrary loan system.

Every effort is made to ensure accuracy by checking information with the library systems and having Library Directors review a draft copy of the proposed document. However, if errors are identified they should be reported to the Provincial Library.

Definitions: Unless otherwise indicated, this report uses the definitions from the federal *National Core Library Statistics Program Survey*.

SOURCES OF INFORMATION

The following sources of information were used in compiling this report:

1. 2000 Annual Reports and audited financial statements from all regional and municipal library systems;

2. 2000 Annual Reports from northern libraries;

3. National Library of Canada - *National Core Library Statistics Program Survey 2000*;

4. Saskatchewan Bureau of Statistics - Final 1996 Census;

5. Saskatchewan Assessment Authority - *2000 Confirmed Equalized and Taxable Assessments* for all urban and rural municipalities;

6. Provincial Library Statistics Form for the Year 2000 from library systems; and

7. Internal Provincial Library statistics for 2000.

Notes:

1. The regional operating revenue covers operating costs of the system. Additional costs incurred by municipalities for operating branch libraries are recorded separately. These added costs and revenues were recorded on branch library annual reports by local library boards. These revenues include: direct financial contributions from supporting municipalities, indirect support such as rent-free facilities, direct funding through grants from organizations, indirect support from local organizations, local fund-raising projects, and donations. The method used to calculate rent varies from branch to branch, and from region to region.

2. Where there was a discrepancy between sources of information, the data in each library's annual report and audited financial statement was the preferred source.

3. The notation (-), where it appears, designates a 'nil' report under that heading.

Notes:

Equalized assessments are "Taxable Assessments" converted to the same base year so as to make them comparable. This conversion is necessary because various areas of the province are at different stages in the province-wide re-assessment of property values.

(2) Lloydminster's confirmed assessment was not confirmed in 2000 so Lakeland's total does not include Lloydminster. However, Lakeland's ranking remains the same as 1999.
